This list of contractors is provided to property owners to assist them in soliciting bids for lead hazard reduction work. These contractors have provided VHCB with evidence that they are certified by the Vermont Department of Health and have indicated their willingness to adhere to the requirements of the VHCB Lead Program. VHCB makes no representations regarding the performance or work quality of these contractors. Owners are responsible for selection of bidders and final selection of a contractor. Owners should carefully evaluate contractor references and insurance coverage. The applications made by contractors to the Lead Program include references, work history information, and certificates of insurance.

Copies are available upon request.
